20	Supply cover to release staff	SP17/18		2,868.00
	Total (this should equal the spend to date)			10,936.21

Croftlands Junior School is using the money to...

- Continue to develop our PE equipment to support and extend the breadth of sports offered to children outside of the curriculum, including competition.

- Release teachers from lessons with a view to increase our engagement in school competitions and sporting opportunities for as many children as possible. 63% of our children have represented the school in sporting events or competition. This academic year we have had 67 % of Pupil Premium children take part in sporting competitions or events and 33 % take part in after school clubs.
- Release the PE Coordinators to attend network meetings to collect up to date information on the subject and share good practice with other schools in the area.
- Develop playground and Sports Leaders equipment to promote active and engaging playtimes and lunch times.
- Promote ‘Health and Wellbeing’ awareness by taking part in whole school and group challenges such as Yoga and 5- A-Day which contributes towards our 30 active minutes a day.
- Use sports coaches, including a reading programme devised by Barrow Raiders Rugby Club.
- Enhance our swimming provision beyond the National Curriculum requirements. 93 % of our Year 6 children have meet the expectations this year.
- Purchase IRIS Connect as a form of personal CPD for teachers as well as to aid to support assessment and inform future planning.
- Coach, prepare and enter a number of children into a local dance platform where they will perform on a stage in front of a large audience.

The impact the funding is having on the school is as follows:

- Due of the wide range of PE equipment purchased for after school clubs or competition, children are now given opportunities in sports they may not have experienced before.
- We have a challenging and progressive curriculum throughout the school and now, with the aid of the Cambridgeshire Scheme of Work, we can develop this further to inform and adapt future plans. We have a progressive long term plan in place between the Lower and Upper School which we continue to refine to suit the needs of both the school and the children.
- Children’s leadership and responsibility role has developed throughout the school with the assistance of Sports Leaders.
- With our participation in sporting competitions increasing, a larger number of children (including those whom wouldn’t usually) in the school have experienced challenge and competition. This is also promoting healthy lifestyle choices as some have shown interest in joining a club in the local community.
- The purchase of sports kits have given the children a sense of pride when representing the school at sporting events, promoting the wellbeing of the team.
- Both staff and children benefit from the use of Sports Coaches. Staff use the time to observe and work alongside them to develop their own personal CPD which will impact on the teaching of future lessons. Children are experiencing a highly qualified coach who provides suitable challenges for gifted children as well as adapted activities or additional support for those who need it.
- After maintaining the playground and Sports Leaders equipment, the children have more opportunities to make healthy lifestyle choices by choosing to be active at both break and lunch times (again contributing towards our 30 actives minutes a day.)
